

Olevia TV Channel Search

Set source to TUNER

Press MENU

Press U/D to get SETUP (toolbox symbol)

Press R to enter submenu

Press U/D to get TV

Press R

Press U/D to get AUTO CHANNEL SEARCH

Press R

Press U/D to get AIR if using antenna

Press U/D to get CABLE if using cable

Press R to begin search for channels

KEY:

U/D are the up/down arrow keys that roll the little box around. Either direction will get you to required display.

R is the right arrow key.

If seeking air signals, be sure the antenna is up and the antenna amplifier is on.

If seeking cable signals, be sure the antenna amplifier is off or it could send interfering signals (so I was told).
